Community Supported Agriculture is about improving the relationship between producer and consumer and sharing the rewards as well as the risks and responsibilities of farming. It works by subscribing as a Member and committing to buy produce from the farm for up to a year. In this way the farmers can work to meet local demand in an ecological way. In return Members generally feel a lot more connected to where their food is coming from and how it is produced.

Please review the membership options, select your produce from below and calculate the cost of your membership

- 1. Produce share** members get a defined share of the produce and pay a set fee. Quantities etc are agreed at the start.
- 2. Subscription members** pay a minimum of £11 a month or £132 up front. Members can place orders in advance against their credit or use it for something special later in the year. Produce will be subject to availability, first come first served.
- 3. General membership.** This is a great way of showing support for the farm and helping with general running costs. £2 per household per month. General members will be part of the farm community, invited to celebrations, trainings and events.
- 4. Bulk buy.** Invest in 5 years of produce worth a minimum of £500. This will fix your food costs for five years.
- 5. A produce trial,** pay for a single product or trial period with no obligation to continue if not completely satisfied.
- 6.** A limited amount of **work and low income shares** are available. Work shares enable members to work for produce, providing they commit to working certain shifts on our rota. Low income members receive all produce at a discounted rate.

Produce	Volume/ Cost	Number	Frequency e.g. weekly/ fortnightly/ monthly/ quarterly/ annually	Total £	Requirements e.g. smoked back bacon and plain sausages
Raw goats milk whole*	1 Litre/ £2 or ½ Litre/ £1
